

# MUNICIPALITY OF NORTH PERTH

## SERVICING MASTER PLAN

### NOTICE OF STUDY COMMENCEMENT

#### THE PROJECT:

The Municipality of North Perth is undertaking a Servicing Master Plan for stormwater, wastewater, and water servicing in the communities of Listowel and Atwood. The Master Plan will investigate existing and future needs for infrastructure as the two communities continue to grow. Upon completion, the Master Plan will serve as a strategic document, and identify infrastructure upgrades or expansions to support continued growth and address existing deficiencies.

#### THE MASTER PLAN PROCESS:

The Servicing Master Plan is being conducted in accordance with the requirements of the Municipal Class Environmental Assessment (Class EA) document, dated October 2000, as amended in 2007, 2011, and 2015 under the Environmental Assessment Act. Master Plan studies incorporate Phases 1 & 2 of the Class EA process (identification of the problem or opportunity, and evaluation of alternative solutions) and also includes consultation with the general public, community stakeholders, government review agencies and Indigenous communities. The process has just been initiated. There will be additional opportunities for public comment and input as the process moves forward.

#### PUBLIC INVOLVEMENT:

Public consultation is a key component of this study. Initial comments are welcome at this time. As a part of the consultation component of this project, a public information meeting will be held during the course of the study. Details regarding the public meeting will be provided in a future notice. Any comments collected will be maintained on file for use during the project and may be included in project documentation. With the exception of personal information, all comments will become part of the public record.
