### Crime Prevention Through Environmental Design (CPTED) is a proactive approach to reduce crime by altering the physical environment of a space.

CPTED principles focus on improving visibility, showing a sense of ownership, and making it difficult for criminals to commit crimes in a community.

#### Benefits to residents:

- Enhanced safety and reduced fear of crime.
- Increased community interaction and awareness.
- Better use of public spaces, making neighborhoods more welcoming.

**Good news!** Residents in Perth County can request a **FREE CPTED assessment** from **Perth County OPP** by contacting 1-888-310-1122, to identify potential vulnerabilities in their homes and receive advice on improving security.

#### Home safety tips:

- Trim shrubs and trees to improve visibility around windows and doors.
- Install motion-sensor lights around your property.
- Use deadbolt locks on all entry points.
- Keep valuables out of sight, both inside and outside your home.
- Get to know your neighbors and report suspicious activity to the OPP.

These small changes can make a big difference in keeping your home and community safe!
